

**AUTHORIZATION TO ADMINISTER DIAPER CREAM**

Virginia Child Care Licensing Standards require that diaper cream be administered to a child only with the parents or guardian's written consent. Diaper cream must be in the original container and labeled with the child's name. By signing below, you authorize Bright Start to apply the diaper cream specified to your child and you acknowledge that the use, frequency of application, and any adverse reactions will be logged on Brightwheel by the teachers.

If, at any time, you would like to change the type of diaper cream being used, you will need to submit a new authorization form.
